

DID YOU REALIZE THAT DRILLED RIMLESS EYEWEAR
ACCOUNTS FOR 40% OF THE OPTICAL INDUSTRY??

Frustrated with loose fittings, crooked mountings, mis-shaped lenses, or costly lens spoilage?

DON'T HESITATE TO SELL THE MOST DEMANDED FRAMES!!

INTRODUCING "THE DRILL TEAM"

- "The Drill Team" brings a unique, dedicated approach to creating drill mounts.
- Utilizing E.Lens Drill technology, a computer controlled drill press, "The Drill Team" has access to an extensive database of drill mount and rimless styles.
- Rx's are scrutinized, demo base curves are clocked and special thickness' are taken into consideration for precise angle drilling.
- After surfacing, coating and edging, the lenses are inspected, marked and ready for drilling.
- The E.Lens Drill accurately drills a pair of lenses with 6 holes in less than 2 minutes, creating a more rapid delivery.
- Finished drill mounts are carefully aligned, cleaned and reviewed to ensure the highest optical standards are met.
- The "Drill Captain" personally inspects the final product before shipping.
- POG can provide you with high quality compression drill mount frames by 2 manufacturers: Tuscany (Stainless Steel & Titanium) and Modern Optical

With our E.lens Drill Press and our experienced "Drill Team", we can provide to you flawless drill mounted eyewear, reducing your labor costs and lens spoilage. Give your sales team and dispensers the confidence to sell the most popular styles by letting the "Drill Team" take care of the rest. Discover the Precision Advantage today!!
